Andhra Pradesh Deputy Chief Minister Pawan Kalyan on Wednesday conducted a full-fledged study on coastal erosion. In this order, he inspected the area where the sea was eroded. In this context, he made important suggestions on erosion issues in the coastal areas today (Friday). Pawan Kalyan today met officials on the prevention of sea erosion. Deputy Chief Minister Pawan Kalyan said that adequate steps will be taken to prevent erosion in the sea shore. The deputy chief minister released a plan prepared by the National Centre for Coastal Research on coastal management. He said erosion issues along the coast in the state are a cause of concern. Where is the problem of erosion including uppada? The deputy CM asked. We have instructed to study the safety measures on the erosion issues on the seashore," Pawan said at the meeting.
